PROFESSIONAL EXPERIENCE

Senior Consultant QA

Simplus Philippines Inc. | Apr 2024 - Mar 2026

Key Achievements

- Led test estimation and working session to gather additional information prior to testing
- Owned functional and integration testing in Salesforce Sales Cloud environment
- Contributed to QA decision-making on testing activities and releases
- Performed Shift-Left Testing to deliver effective test solutions
- Validated test results through SOQL and Salesforce Inspector
- Verified flows, permission sets and roles

Quality Assurance Engineer

BandLab Technologies | Feb 2023 - Nov 2023

Key Achievements

- Created and maintained comprehensive test cases in Zephyr
- Contributed to QA sharing sessions on the feature(s) tested/update
- Executed performance, usability, and compatibility testing for mobile apps
- Performed Payments testing in Production (in-app purchases, subscriptions) for Boost and Membership features
- Tested feature experiments with Amplitude (A/B Testing)
- Triggered and tested builds from Jenkins, Firebase App Distribution and TestFlight

Senior QA

Blackfort Consulting Inc. | Aug 2022 - Feb 2023

Key Achievements

- Led the requirements review and defect management
- Led team verifications testing with other stakeholders
- Initiated user stories validation in early stage of development
- Owned the software testing lifecycle from requirements review, test design, execution through to defect resolution
- Performed regression testing across mobile platforms
- Reduced defect rates of 10% through early requirements review

Manual Tester

Prosource BPO | Jul 2019 - Feb 2023

Key Achievements

- Enhanced test execution by 15% on implementing Software Testing Technique
- AWS microservices testing
- Checked whether business requirements are met during testing
- Ensured release readiness and provided QA sign-offs
- Identified bottlenecks in the entire testing phase
- Performed Backend testing using TOAD for MySQL
- Performed End-to-End testing for COVID Web and Mobile apps

Quality Assurance

XCEED CCS under Skywind Group | May 2018 - Jun 2019

Key Achievements

- Acted as Game QA: assigned to understand the game script, mechanics, design files, and all features of the game (Zhan Hun).
- Attended game kickoff meetings
- Gathered requirements through BRD/FRD review or walk-through meetings
- Participated in test estimation, sprint planning and defect triage
- Performed different types of testing (regression, exploratory, smoke, sanity, server-related testing, L10N, and ad-hoc)

Software QA Engineer

Kinpo Electronics Philippines Inc. | Jul 2016 - Apr 2018

Key Achievements

- Reduced defect rates by conducting thorough root cause analysis and implementing corrective actions.
- Streamlined QA processes, resulting in accelerated product releases and improved customer satisfaction.
- Utilized the use of Mantis bug tracking system for Defect Management
- Studied new software functionalities/features
- Performed Web, Mobile and Desktop applications testing
- Performed Firmware tests on assigned 3D Printers

QA Tester

ARUZE Gaming | Jan 2015 - May 2015

Key Achievements

- Improved software quality by executing comprehensive test plans and meticulously documenting results.
- Conducted thorough regression testing of previous builds to verify bug fixes and maintain app stability.
- Provided timely feedback to developers on identified issues, enabling rapid resolution of bugs before launch deadlines.
- Followed guidelines and all documents related to the job (Manuals & checklists).

EDUCATION

Bachelor of Science in Information Technology
STI College | 2014

CERTIFICATIONS

- ISTQB Certified Tester Foundation Level
- Salesforce Certified Platform Foundations
- Agile Crash Course: Agile Project Management, Agile Delivery
- Business Writing & Technical Writing Immersion
