PROFILE

Senior QA Engineer experienced in manual testing, regression testing, backend/API validation, and mobile app QA across software delivery environments. Known for test strategy support, defect management, and cross-functional collaboration in release-focused teams.

WORK EXPERIENCE

Simplus Philippines, Inc.

Apr 2024 - Mar 2026

Senior Consultant - QA

- Led test estimation and working session to gather additional information before testing activities start
- Owned functional testing in Salesforce Sandboxes
- Contributed to QA decision-making on testing activities and releases
- Reviewed business, technical requirements, and application design to ensure app testability
- Helped in defining appropriate test strategy for the project
- Validated test results through SOQL and Salesforce Inspector
- Verified flows, permission sets and roles

BandLab Technologies

Feb 2023 - Nov 2023

Quality Assurance Engineer

- Created and maintained comprehensive test cases in Zephyr
- Contributed to QA sharing sessions on the feature(s) tested/update
- Executed performance, usability, and compatibility testing for mobile apps
- Performed Payments testing in Production (in-app purchases, subscriptions)
- Tested feature experiments with Amplitude (A/B Testing)
- Triggered and tested builds from Jenkins, Firebase App Distribution and TestFlight

Blackfort Consulting Inc.

Aug 2022 - Feb 2023

Senior QA

- Led the requirements review and defect management
- Led team verifications testing with other stakeholders
- Initiated user stories validation in early stage of development
- Owned the software testing lifecycle from requirements review, test design, execution through to defect resolution
- Performed regression testing across mobile platforms
- Monitored the builds in TestFlight and Firebase AppTesters
- Reduced defect rates of 10% through early requirements review

- **Salesforce Certified Platform Foundations**
Salesforce, Sep 2024
- **Agile Crash Course: Agile Project Management, Agile Delivery**
Udemy, Feb 2024
- **Business Writing & Technical Writing Immersion**
Udemy, Aug 2021

LANGUAGES

- English (Fluent)
- Tagalog (Fluent)

Prosource BPO

Jul 2019 - Feb 2023

Manual Tester

- Enhanced test execution by 15% on implementing Software Testing Technique
- AWS microservices testing
- Checked whether business requirements are met during testing
- Ensured release readiness and provided QA sign-offs
- Identified bottlenecks in the entire testing phase
- Performed Backend testing using TOAD for MySQL
- Performed End-to-End testing for COVID Web and Mobile apps

Xceed CCS under Skywind Group

May 2018 - Jun 2019

Quality Assurance

- Acted as Game QA: assigned to understand the game script, mechanics, design files, and all features of the game (Zhan Hun).
- Attended game kickoff meetings
- Gathered requirements through BRD/FRD review or walk-through meetings
- Participated in test estimation, sprint planning and defect triage
- Performed different types of testing (regression, exploratory, smoke, sanity, server-related testing, L10N, and ad-hoc)

Kinpo Electronics Philippines Inc.

Jul 2016 - Apr 2018

Software QA Engineer

- Reduced defect rates by conducting thorough root cause analysis and implementing corrective actions.
- Streamlined QA processes, resulting in accelerated product releases and improved customer satisfaction.
- Utilized the use of Mantis bug tracking system for Defect Management
- Studied new software functionalities/features
- Performed Web, Mobile and Desktop applications testing

ARUZE Gaming America

Jan 2015 - May 2015

QA Tester

- Improved software quality by executing comprehensive test plans and meticulously documenting results.
- Conducted thorough regression testing of previous builds to verify bug fixes and maintain app stability.
- Provided timely feedback to developers on identified issues, enabling rapid resolution of bugs before launch deadlines.
- Followed guidelines and all documents related to the job (Manuals & checklists).
- Monitored the status of the tests and tasks performed.

EDUCATION

Bachelor of Science in Information Technology

STI College (Balayan, Batangas)

Jun 2009 - March 2014
